Growing your own food can be a very rewarding and worthwhile experience. This workshop will take you through all of the basic planning and skills you need to be able to produce your own fresh organic food, right in your own backyard. We will explore the basics of edible garden design, preparing the soil, easy steps for converting lawn to garden, choosing annual and perennial vegetables, herbs and heirloom tomatoes for Alberta gardens, plant spacing, strategies for low-maintenance gardens, companion planting and more. Plant and take home a Veggie Garden in a Pot!

“Succulent Container Gardening Workshop”

Workshop | Sat. June 5 | 11 a.m. -1 p.m. | Prairie Gardens & Adventure Farm

Workshop: \$5 Lunch \$10

Planter Materials Optional - Extra (\$10 - \$25)

Succulents are low-water plants – a lush alternative to thirsty flowerbeds and flowerpots! This allows them to survive periods of drought, such as when their owner forgets to water them! Common types include Aeoniums, Crassulas, Euphorbias, Echeverias, Sedums, Yuccas and Hens & Chicks. The popularity of succulents is soaring, with water shortages and rationing impacting many regions. Learn everything you need to know to create stunning container displays of exceptionally water-wise plants with Tam Andersen, CTV Gardening Expert. Includes a demonstration of planting a succulent container garden. Includes a special sale of succulents!

“Field to Table Cooking Class Adventure”
